DC-2002: Metadata for e-Communities: Supporting Diversity and Convergence

DC-2002 marks the tenth in the ongoing series of International Dublin Core Workshops, and the second that includes a full program of tutorials and peer-reviewed conference papers. Interest in Dublin Core metadata has grown from a small collection of pioneering projects to adoption by governments and international organizations worldwide. The scope of interest and investment in metadata is broader still, however, and finding coherence in this rapidly growing area is challenging.

The theme of DC-2002 — supporting diversity and convergence — acknowledges these changes. The greatest challenge of the current phase of metadata development is bringing together the diversity of local conventions, domain specific requirements, and different encoding conventions such that cross-domain interoperability can be achieved.

DC-2002 brings together practitioners from libraries, museums, education, government, commerce, supra-governmental organizations, and others in a venue for discourse, education, exploration, and development of metadata themes on the Web and elsewhere. Contributions come from practitioners focused on the needs of constituents on the one hand and theoreticians exploring the ‘Semantic Web’ on the other. Adopters are faced with decisions about XML, RDF, Schema languages, ontologies, Open Archive Initiative protocols, and more. The richness of this diverse field of endeavor is both exciting and daunting.

It is fitting that DC-2002 takes place in Florence, in the shadow of Il Duomo. Brunelleschi’s dome, still acclaimed as one of the world’s great buildings, offers us lessons for our own efforts. Francesco Talenti’s 1366 design for Il Duomo called for a dome that surpassed the limits of architectural practice of the day. It was more than 50 years before Brunelleschi’s design to complete the building was approved and years more before it could be executed.

Our metadata systems may never achieve the grace and beauty (let alone the persistence!) of this great hallmark of Renaissance confidence, but we share with these visionaries acceptance of uncertainty and the confidence to act in spite of it. The authors of the papers in these Proceedings, and the conferees that engage them, will play a part in resolving these uncertainties and strengthening the foundations of resource discovery.

Stuart Weibel
Director, Dublin Core Metadata Initiative

Message from the Organising Committee

DC-2002, the International Conference on Dublin Core and Metadata Applications 2002 is taking place in Florence. In late 2001 Dublin Core Metadata Initiative (DCMI) asked a number of us if we saw a possibility to host this annual event. One of the ideas behind the choice of location was the intention to highlight the metadata concept for a potential public in Southern Europe. We accepted this challenge and have worked to make this year's Conference an occasion where experts, practitioners as well as learners can profitably come together and take away new ideas and insights. With the array of keynote, papers, posters, workshops, tutorials, special topic sessions and birds-of-a-feather meetings on offer every participant will find plenty of interest.

Later this same week the annual Italian Library Conference is taking place in Rome. We have profited from the presence of this large gathering of Italian librarians to organize an extra Dublin Core introductory tutorial, in Rome and in the Italian language. Interest has been overwhelming.

In addition to the conference programme itself the organisers have tried to offer the participants an experience that will make their brief stay in Florence agreeable. The Conference venue, the Oltrarno Meeting Center, a former convent by the name of "Convitto della Calza", is a beautiful and historical place. Other historical buildings in the town of Florence will host some of the social events during the week.

Although the DC-2002 Conference is largely self-financed we need to thank a number of organisations for their material, financial, and staff support. These are listed in the next pages.

Finally, many individuals have given of their time and effort in order to create the conditions of success for this Conference. We owe them our thanks. Among them a few certainly deserve special mention because of their constant and unstinting involvement: Massimo Rolle, Susanna Peruginelli and Giovanni Bergamin.

On behalf of the local Organising Committee I wish all participants a most successful conference.

Michiel Tegelaars
Coordinator of the local Organising Committee

THE DC-2002 CONFERENCE IN FLORENCE WAS ORGANIZED UNDER THE AUSPICES OF THE DUBLIN CORE METADATA INITIATIVE BY THE FOLLOWING PEOPLE:

Programme Committee members

Jun ADACHI	Stefan JENSEN
Isidro AGUILLO	Pete JOHNSTON
Ann APPS	Noriko KANDO
Ray ATARASHI	Stephen KATZ
Tom BAKER	Johannes KEIZER
Miroslav BARTOŠEK	Sung-Hyuk KIM
Olga BARYSHEVA	László KOVÁKS
Nicola BENVENUTI	John KUNZE
José BORBINHA	Cristina MAGLIANO
Nancy BRODIE	Stefania MANZI
Pino BUIZZA	Lynn MARKO
Debbie CAMPBELL	Enrico MARTELLINI
Hsueh-hua CHEN	Liddy NEVILE
Geneviève CLAVEL	Ayling ONG
Gianfranco CRUPI	Federica PARADISI
Roberto DALLARI	Dina PASQUALETTI
Michael DAY	Valdo PASQUI
Antonella DE ROBBIO	Maria PEPE
Makx DEKKERS	Ginevra PERUGINELLI
Sandra DI MAJO	Susanna PERUGINELLI
Asuman DOGAC	Maria Chiara PETTENATI
Antonella FARSETTI	Siripan PRADITTA
Elisabeth FREYRE	Mario RAGONA
Janifer GATENBY	Oh SAM
Simona GATTA	Antonio SCOLARI
Dino GIULI	Carla SIMONE
Claudio GNOLI	Aida SLAVIC
Jane GREENBERG	Shigeo SUGIMOTO
Mariella GUERCIO	Anna Maria TAMMARO
Mauro GUERRINI (Co-chair)	Federico VALACCHI
Juha HAKALA	Stefano VITALI
Jytte HANSEN	Stuart WEIBEL (Co-chair)
Preben HANSEN	Andrew WILSON
Liv HOLM	Eric ZIMMERMAN
Jane HUNTER	

Publicity Committee

Giovanni BERGAMIN (National Library, Florence)
Dina PASQUALETTI (National Library, Florence)

Publication Committee

Lucia BERTINI (Firenze University Press)
Patrizia COTONESCHI (Firenze University Press)
Antonella FARSETTI (Firenze University Press)

Tutorial Committee

Makx DEKKER (DCMI)

Local Organizing Committee

Catherine DEELEY, Secretary
Massimo ROLLE (Regione Toscana)
Michiel TEGELAARS, Co-ordinator (European University Institute)

THE DC-2002 CONFERENCE IN FLORENCE RECEIVED MATERIAL SUPPORT FROM THE FOLLOWING ORGANIZATIONS:

Associazione Italiana Biblioteche
Biblioteca Nazionale Centrale di Firenze
Fondazione Cassa di Risparmio di Firenze
Comune di Firenze
Dublin Core Metadata Initiative
European University Institute
Florence University Press
Istituto e Museo della Storia della Scienza
Regione Toscana
Università degli Studi di Firenze

Contents

Paper Session 1

- District Architecture for Networked Editions: Technical Model and Metadata**7
Antonella Farsetti (*Firenze University Press*), Valdo Pasqui (*Centro Servizi Informatici dell'Ateneo Fiorentino*)
- Metadata in the Context of The European Library Project**19
Theo van Veen (*Koninklijke Bibliotheek, The Netherlands*), Robina Clayphan (*British Library, United Kingdom*)
- Archon – A Digital Library that Federates Physics Collections**27
K. Maly, M. Zubair, M. Nelson, X. Liu, H. Anan, J. Gao, J. Tang, Y. Zhao (*Computer Science Department, Old Dominion University*)
- Linking Collection Management Policy to Metadata for Preservation – a Guidance Model to Define Metadata Description Levels in Digital Archives**35
Maria Luisa Calanag, Koichi Tabata, Shigeo Sugimoto (*University of Library and Information Science*)
- Semantic Web Construction: An Inquiry of Authors' Views on Collaborative Metadata Generation**45
Jane Greenberg (*School of Information and Library Sciences, University of North Carolina at Chapel Hill*), W. Davenport Robertson (*National Institute of Environmental Health Sciences*)
- Preliminary Results from the FILTER Image Categorisation and Description Exercise**53
Jill Evans (*Institute for Learning and Research Technology, University of Bristol*), Paul Shabajee (*Graduate School of Education and Institute for Learning and Research Technology, University of Bristol*)

Paper Session 2

- Building Educational Metadata Application Profiles**63
Norm Friesen (*Athabasca University*), Jon Mason, Nigel Ward (*education.au limited*)
- Exposing Cross-Domain Resources for Researchers and Learners**71
Ann Apps, Ross MacIntyre, Leigh Morris (*MIMAS, Manchester Computing, University of Manchester*)
- Integrating Schema-specific Native XML Repositories into a RDF-based E-Learning P2P Network**81
Changtao Qu (*Learning Lab Lower Saxony, University of Hannover*), Wolfgang Nejdil (*Computer Science Dept., Stanford University*), Holger Schinzel (*Learning Lab Lower Saxony, University of Hannover*)
- Building Digital Books with Dublin Core and IMS Content Packaging**91
Michael Magee (*Netera Alliance*), D'Arcy Norman, Julian Wood, Rob Purdy, Graeme Irwin (*University of Calgary*)
- The Virtual Image in Streaming Video Indexing**97
Piera Palma, Luca Petraglia, Gennaro Petraglia (*Dipartimento di Matematica e Informatica - University of Salerno*)
- The Use of the Dublin Core in Web Annotation Programs**105
D. Grant Campbell (*Faculty of Information and Media Studies, University of Western Ontario*)

Paper Session 3

- A Comprehensive Framework for Building Multilingual Domain Ontologies: Creating a Prototype Biosecurity Ontology**113
Boris Lauser, Tanja Wildemann, Allison Poulos, Frehiwot Fisseha, Johannes Keizer, Stephen Katz (*Food and Agriculture Organization of the UN*)

The MEG Registry and SCART: Complementary Tools for Creation, Discovery and Re-use of Metadata Schemas	125
Rachel Heery, Pete Johnston (<i>UKOLN, University of Bath</i>), Dave Beckett, Damian Steer (<i>ILRT, University of Bristol</i>)	
Does metadata count? A Webometric investigation	133
Alastair G. Smith (<i>School of Information Management, Victoria University of Wellington</i>)	
Using Dublin Core to Build a Common Data Architecture	139
Sandra Fricker Hostetter (<i>Rohm and Haas Company, Knowledge Center</i>)	
Using Web Services to Interoperate Data at the FAO	147
Andrea Zisman (<i>Department of Computing, City University, London</i>), John Chelsom, Niki Dinsey (<i>CSW Informatics Ltd</i>), Stephen Katz, Fernando Servan (<i>Food and Agriculture Organization, United Nations</i>)	
Design of a Federation Service for Digital Libraries: the Case of Historical Archives in the PORTA EUROPA Portal (PEP) Pilot Project	157
Marco Pirri, Maria Chiara Pettenati, Dino Giuli (<i>Electronics and Telecommunications Department, University of Florence</i>)	

Paper Session 4

Describing Services for a Metadata-driven Portal	165
John Roberts (<i>Archives New Zealand</i>)	
New Zealand Government Implementation of a DC-based Standard – Lessons Learned, Future Issues	171
Sara Barham (<i>Portal Information Manager, E-government Unit, State Services Commission</i>)	
Visualising Interoperability: ARH, Aggregation, Rationalisation and Harmonisation	177
Michael Currie, Meigan Geileskey, Liddy Nevile, Richard Woodman	
Metadata Pilot at the Department for Education and Skills, UK	185
Julie Robinson (<i>Library and Information Services Team, Department for Education and Skills, London</i>)	

Posters

Policy Control Network Architecture using Metadata	195
Ray S. Atarashi (<i>Communication Research Laboratory</i>), Shigeru Miyake (<i>Hitachi, Ltd.</i>), Fred Baker (<i>Cisco Systems</i>)	
An Online Knowledge Gateway for Industrial Design Education and Research Activities	197
Mida Boghetich, Paolo Ciuccarelli, Perla Innocenti, Federico Vidari (<i>Dept. INDACO, Politecnico di Milano</i>)	
Metadata hiding tightly binding information to content	199
Roberto Caldelli, Franco Bartolini, Vito Cappellini (<i>Electronics and Telecommunications Department, University of Florence</i>)	
Learning how to Learn: Using the Dublin Core Metadata Element Set to Support Teachers as Researchers	201
Patrick Carmichael (<i>University of Reading, UK</i>)	
The Need for a Meta-Tag Standard for Audio and Visual Materials	205
Diana Dale, Ron Rog (<i>Department of Canadian Heritage, Government of Canada</i>)	
Enhancing end user searching of HealthInsite	207
Prue Deacon (<i>HealthInsite Editorial Team, Commonwealth Department of Health and Ageing, Australia</i>)	
Abstraction versus Implementation: Issues in Formalizing the NIEHS Application Profile	213
Corey A. Harper (<i>Knight Library, University of Oregon</i>), Jane Greenberg (<i>University of North Carolina at Chapel Hill</i>), W. Davenport Robertson, Ellen Leadem (<i>National Institute of Environmental Health Sciences</i>)	

Integrating Learning Objects into Learning Contexts	217
I.T. Hawryszkiewicz (<i>Faculty of Information Technology, University of Technology, Sydney</i>)	
Metadata associated Network Services and Capabilities	225
Masatoshi Kawarasaki, Junichi Kishigami (<i>NTT Service Integration Laboratories</i>)	
Visual Representation and Contextualization of Search Results – List and Matrix Browser	229
Christoph Kunz, Veit Botsch (<i>Fraunhofer IAO</i>)	
Development and Application of Dublin Core Metadata Standards in Marathi	235
Shubhada Nagarkar (<i>Bioinformatics Center, University of Pune</i>), Harsha Parekh (<i>SNDDT Women's University, Mumbai</i>)	
Why is Accessibility Metadata Proving Difficult?	237
Liddy Nevile (<i>Motile Research</i>)	
Subject Access Metadata on the French Web	243
Ewa Nieszkowska (<i>École nationale des sciences de l'information et des bibliothèques, Lyon</i>)	
What's the Use of DC.Type? Semantic and functional aspects of the role of DC.Type within a moving image metadata generation tool	245
